# Chapter 1 - Resolved Issues

The following issues were resolved with Lytec 2017 Hotfix 2.

PBI	Application	Description
195096	Lytec	<p>You will no longer receive an error when opening patient images while using Lytec on a Remote Desktop.</p> <p>NOTE: If you are using a 3rd party RDP redirector, you <b>must</b> change the setting in the Lytec.exe.config file to "1" (or add the setting if it is not there). Otherwise, the scan buttons will be disabled if you are running Lytec over Remote Desktop.</p> <p>The Lytec.exe.config file is located at: C:\Program Files (x86)\Lytec 2017</p> <p>Below is the code:</p> <pre>&lt;add key="TwainOverRDP" value="1"/&gt; &lt;/appSettings&gt;</pre> <p>Be sure that the value for TwainOverRDP is 1.</p> <p><u>Steps to recreate</u></p> <ol style="list-style-type: none"> <li>1. Open a practice in Lytec and log in.</li> <li>2. On the Lists menu, select Patient, and then Patients.</li> <li>3. Select a patient.</li> <li>4. Click the Patient drop-down on the right and select Images.</li> <li>5. Verify that there is no error.</li> </ol>
195143	Patient Package	<p>Selecting multiple reports in the Patient Package will now print all reports. Previously, only one report was being printed.</p> <p><u>Steps to recreate</u></p> <ol style="list-style-type: none"> <li>1. On the Admin ribbon, select Preferences. The Preferences screen appears.</li> <li>2. Select the Patient Package tab.</li> <li>3. Add two or more default reports and click the <b>OK</b> button.</li> <li>4. On the Scheduling menu, select Schedule Appointments.</li> <li>5. Right-click a patient and select Print Patient Package.</li> <li>6. Select a printer and click the <b>OK</b> button.</li> <li>7. Verify that all reports print.</li> </ol>

195600	Rebuild Data Files	<p>Rebuild Data Files will now properly rebuild the files for large data sets without errors.</p> <p><u>Steps to recreate</u></p> <ol style="list-style-type: none"> <li>1. On the Tools menu, select Rebuild Data Files. The Rebuild Data Files screen appears.</li> <li>2. Click the <b>Select All</b> button.</li> <li>3. Click the <b>OK</b> button.</li> <li>4. Click the <b>Yes</b> button to make a backup.</li> <li>5. Follow the screens to complete the backup.</li> <li>6. Verify the rebuild process completes without error.</li> </ol>
195698	Billing	<p>Lytec 2017 has been updated to validate chart numbers for patients during billing against the patient table instead of a list of allowed characters.</p> <p><u>Steps to recreate</u></p> <ol style="list-style-type: none"> <li>1. If you have any patients with an illegal (non-alpha-numeric) character in their chart number, select one and enter a billing.</li> <li>2. Verify there is no error when the billing is saved.</li> </ol>

The issues below were resolved in Hotfix 1:

PBI	Application	Description
195050	Lytec	<p>You are now able to enter numbers correctly in the Balance range fields on the Filters and Options screen for A/R Tracking. The cursor no longer jumps to the second field without warning.</p> <p><u>Steps to recreate</u></p> <ol style="list-style-type: none"> <li>1. On the Billing tab in Lytec, select A/R Tracking. The A/R Tracking screen appears.</li> <li>2. Under Selected Filters and Options, click a link to open the Filters and Options screen.</li> <li>3. In the Balance fields, enter values in both fields to create a range.</li> <li>4. Verify that you are able to enter any numbers you want in both fields and that the cursor does not jump from the first range field to the second range field without warning.</li> </ol>

195096	Lytec	<p>You will no longer receive an error when opening patient images while using Lytec on a Remote Desktop.</p> <p>NOTE: If you are using a 3rd party RDP redirector, you <b>must</b> change the setting in the Lytec.exe.config file to "1" (or add the setting if it is not there). Otherwise, the scan buttons will be disabled if you are running Lytec over Remote Desktop.</p> <p>The Lytec.exe.config file is located at: C:\Program Files (x86)\Lytec 2017</p> <p>Below is the code:</p> <pre>&lt;add key="TwainOverRDP" value="1"/&gt; &lt;/appSettings&gt;</pre> <p>Be sure that the value for TwainOverRDP is 1.</p> <p><u>Steps to recreate</u></p> <ol style="list-style-type: none"><li>1. Open a practice in Lytec and log in.</li><li>2. On the Lists menu, select Patient, and then Patients.</li><li>3. Select a patient.</li><li>4. Click the Patient drop-down on the right and select Images.</li><li>5. Verify that there is no error.</li></ol>
